CONFIRMATION OF PRESENTATION

Dear Professor NAKADA Tatsuya,

On behalf of Dalian Maritime University, I would like to thank you for delivering an excellent 20-minute presentation on Underwater Cultural Heritage law and policy in Japan during the **First Asian Regional Workshop on the Protection of Underwater Cultural Heritage on 2-3th December 2021**.

A Dalian Maritime University Ocean Decade initiative supported by the Chinese University of Hong Kong, the First Asian Regional Workshop on the Protection of Underwater Cultural Heritage, invited high-level government officials, preeminent policymakers, respected practitioners, and influential academics, such as yourself, from across the region, to share information about how each country is addressing the need to protect Underwater Cultural Heritage through legislative, policy and practical responses.

As one of Asia's most distinguished and influential experts in the field, we gratefully acknowledge and appreciate your immense contribution to the workshop, both in delivering the presentation and for your insightful comments during the discussion on Asian Underwater Cultural Heritage law policy, practice and its potential future directions. Please accept this letter **as evidence of your participation in the workshop and confirmation of your most excellent presentation**.

I am also sharing a summary snapshot of the first workshop for your records.

Yours sincerely,

**ASIAN REGIONAL WORKSHOP
ON THE PROTECTION OF THE UNDERWATER CULTURAL HERITAGE
Thursday 2nd & Friday 3rd December 2021
13.00-21.00 CST**

In order to better understand Asian Perspectives on the Protection of the Underwater Cultural Heritage, Dalian Maritime University will hold a series of Asian Regional Workshop on the Protection of Underwater Cultural Heritage; an emerging field in Asian international law and policy.

The first workshop, invites high-level government officials, policy-makers, practitioners, and academics from across the region to examine how their respective Asian nation is working toward the protection of Underwater Cultural Heritage through legislative, policy and practical responses. These responses may include but not be limited to, domestic legislation, transnational diplomacy, bilateral agreement, soft law, and the signing or ratification - or not - of the 2001 UNESCO Convention on the Protection of the Underwater Cultural Heritage.

Current legislative regimes in the region will be explored, national priorities examined, key issues discussed and future directions proposed, alongside rationales for the ratification of the 2001 Convention, or investigation of the issues preventing nations which have not yet ratified, or which ultimately choose not to, from doing so.

Each panel speaker has 20 minutes for their presentation. The official workshop language is English.
